Manchester, UK

## Profile

An enthusiastic and imaginative software developer who is able to work alongside other talented IT professionals in creating applications to the very highest standards. Enjoys being creative, getting things done efficiently and being part of a great team.

## Skills

- Javascript ES6
- React, EJS, jQuery (Frontend libraries/frameworks)
- Redux, Flux (State management)
- HTML, CSS, Sass, Bootstrap
- Build / task automation (Webpack)
- RESTful Web APIs (Node, Express)
- Version Control (Git)
- Unit Testing (Jest, Enzyme)
- MongoDB
- Sitecore (CMS)

## Experience

**Degree53 – Junior Frontend Developer – Mar 18' – Present**

**Worked as part of the team dedicated to the Betfred application (gaming app).**

- Created UI components according to design specifications to build the redesign of Betfred's new Lottery application, an app used by thousands of customers. Main focus on this project was mobile view and its functionality. Main technologies used were React, Flux, Sass and Jest.
- Investigated and resolved bugs in various parts of Betfred application.
- Documented various work procedures with clear language and use of screenshots. These documentations were used as reference guides by other developers and the QA team.

**Northcoders – Student at Programming Bootcamp - Nov 17' – Jan 18'**

**Took part in a 12-week intensive Bootcamp focused on front-end and back-end programming learning Javascript**

**Projects include:**

- **Northcoders News Sprint** – Built an interactive website using React for the frontend, Node and Express for the Web Api, and MongoDB for the database. The application allowed users to read news articles, as well as comment and rate them.

- **Formula 1 Sprint** – Pair programmed to build a website displaying Formula 1 data across many seasons. The site has the backend built with Node and Express, using EJS template framework to render views on server side.

 **Fujitsu - Customer Support Technician - Jan 2016' – Aug 2017'**

- Worked with a variety of IT incident management systems.
- Was employee of the month for providing exceptional support during a extremely busy period following systems outage.
- Provided 1st line technical support, answering support queries via phone and email, ensuring all queries were dealt with efficiently and quickly as possible according to SLA.
- Troubleshot incidents via phone and remote desktop connection.

**Deliveroo - Delivery Driver - Aug 15' - Dec 15'**

- Ensured customers received food as fast as possible and provided excellent customer service.

**The Spinning Jenny - Team Member - Mar 15' - Aug 2015'**

- Worked well in a fast paced environment and under pressure.

**Gusto Restaurants - Bartender - Nov 2014' - Feb 2015'**

- Worked well in a fast paced environment and under pressure.

**Diana Cowpe Ltd - Office Assistant Sept 07' – Feb 12'**

- Administered online sales process web sales handling the business' website.
- Handled all customers' enquiries over email and telephone.
- Increased the company's marketing and sales by creating marketing material using Photoshop.
- Kept companies' stock and invoices organized via the use of Sage and Opera programs.
